About Refugee Roads

Refugee Roads is a project with the aim to inform us and others about the Refugee Crisis in Europe. We are biking in June and July 2016 from Den Haag, Netherlands to Lesbos, Greece. On our journey we want to document the daily experiences of refugees using the Balkan Route. Our goal is in the end to produce a documentary about the stories of humans that we encountered on the road. if you know a refugee or are one yourself with a story that you want to tell, please do let us document it.

About the Participants

We are Timo (22) and Florian (23), two students from Leiden University in Den Haag. We are German citizens. We have neither professional experience with media work nor do we pursue any dangerous or discriminating goals. Please support us on our journey, if you can with food or a bed for a night. Ask us questions, follow us on facebook and donate to our cause on our website. In case of an emergency please contact the persons listed below.

Thank you and have a great day!
